How Does Learning Happen? Ontario's pedagogy for the early years is organized around the foundations of **belonging, well-being, engagement,** and **expression.** Let's look closely at how our educators support these conditions—important for children to learn, grow and flourish— at early learning playgroups!

At Calvary Community Church EarlyON program, four year old Lane declared "I have an idea! What if we put all the balls in the playdough? We can hide them." The educator Brittany noticed Lane had developed his own theory when it came to combining pom-poms and playdough. Brittany suggested they count the balls first so they know how many to look for. Two year old Emmett liked this idea and offered some tongs for picking up the "balls". Lane suggested "We count them all and then we know if it's correct when we look—you know the number!" When educators provide time, space, and interesting open-ended materials, children will show us their ideas and inquiries about how things work. We will be co-learners when we listen.
